

Robeson July 7 / 59

Co. Robeson

Dear Friend yours is before me. I was down in your county a few days since but did not get to see you. I have seen Mr. Martin & got him to see Mrs. Johnson as she was sick & he informs me that he thinks that she prefers you taking the property that she bought from you back & pay send for said property & you allow her for the improvements that she has done so when you come up you & her can fix up & agree about the matter but I would not allow her much for her improvements as she has paid out but little for it & she has been renting one room of her house for 8 dollars per month so you can have some idea what she should pay for the property I am satisfied that she has not written you as she should have done but she is a hard case at best. I perhaps will be absent for some three weeks as I have to go to Memphis Tenn with my wife. I have just attended a debate between Frank Luback & Jack Looney

at a Sam Houston Bonfire given at
Sears Mills on the Brazos River O.D.
whose was our last Governor perfectly
skinned & scalped a live & pack skins
is now joining Sam through & promises
to save the Sam Houston in earnest
& that this Runnels Chick shall get
a good thrashing in the neck of the pack
the hope had a nother call meeting on the
Frontier & denounces Runnels army
then under Mr Brown & Capt S. & an
Indult to the people & by that to maintain
that they are competent to protect them selves
without his aid - & Call on the adjoining
Counties to help them & they will amply
mooor those Indians beyond the Red River
So you may expect to hear of a nother sup

Old Sam Houston is all right
& the Hole Ticket in this County I think
that we will amuse them some in this
fight keep the ball in motion in your
County in haste your friend
James Williamson
